

FAQs for Std 11 Admissions (Academic Year 2022-23)

1. Does the school offer subjects from Science, Commerce as well as Arts Stream?

Yes the school offers subjects from these three streams. Additionally the school also offers Liberal Arts program.

2. What is Liberal arts program? Which undergraduate courses could I opt for with such subject combinations?

Liberal Arts is a broader discipline which includes subjects from Arts, Social Sciences, Natural Sciences, Mathematics etc. Several courses and career options with Liberal Arts curriculum are possible.

Not all the undergraduate programs have a requirement of stream specific subject choices. The document 'Compendium of Courses After +2' document will help you understand the course domains which have 10+2 as eligibility criteria. It will also guide you for the courses available under each domain and the institutes offering the courses, etc.

For further exploration you may visit <https://cbsecareerguidance.com/>. Create your account and go through the various course options along with the needed eligibility criteria.

3. Will I be allowed to choose Biology or Chemistry, if the other subjects I would be interested in are Economics, Accountancy and Business Studies?

Yes you will be allowed to choose this combination.

4. Do I need to join classes for Boards or competitive examinations? How will I manage the entrance examinations without classes?

The school program is designed in a manner that you will not be required to join any additional classes for 11th and 12th Boards.

To supplement the school program, our expert teachers teaching have launched 'Comprehensive Scholastic Program' for preparing students for certain entrance exams such as Design, CET, JEE and NEET aspirants with reasonable additional fee.

To know more about the Comprehensive Scholastic Program [Click here](#).

5. I had opted for Basic Mathematics. Will I be eligible to opt for Mathematics subject for 11th and 12th?

If you have opted for Basic Mathematics in Class 10, you will be eligible to opt for Applied mathematics and not Standard Mathematics.

Ref: http://cbseacademic.nic.in/web_material/Circulars/2020/22_Circular_2020.pdf

Applied Mathematics was earlier offered as a skill subject at Senior Secondary level. From the academic year 2020-21 CBSE introduced it as an academic elective.

6. How do I choose the right Mathematics course for me from Applied Mathematics and Standard Mathematics for Class XI?

Students who want to opt for higher studies in Mathematics at the University level as an Elective or want to pursue Engineering Courses or Mathematics Honors may take Mathematics (Subject Code - 041).

The Applied Mathematics (Subject Code - 241) course is designed to enhance the knowledge and skills of Mathematics that are required to be successful in different career fields such as Computational Analyst, Data Analyst, Data Engineer, Data Scientist, Financial Advisor etc. Therefore this course may be selected by students keeping this aspect in mind.

However the students who have passed Mathematics-Basic (241) in Class X are not eligible to opt for Mathematics (041) at Sr. Secondary Level.

7. Is there any difference between Applied Mathematics and Mathematics? Whether I am eligible for the JEE/CET exam?

Mathematics syllabus is aligned very well to help you with the science stream whereas the Applied Mathematics syllabus is aligned for those who choose commerce, humanities stream or liberal arts.

To appear for JEE/CET you need to have regular Mathematics at Senior Secondary.

8. Will I be allowed to change the subject in Class XII?

As the process of student registration happens in Class XI, change of subject after registration requires CBSE approval and payment of processing charges to CBSE.

9. When will the academic year 2022-23 begin at MILLENNIUM?

The Academic Year 2022-23 is planned to begin on Wednesday, 15th June 2022.

10. What is the admission intake and average class strength ?

There are two divisions each of 11th and 12th with an average of 40 in each class.

11. Does the school offer any co-curricular activities at Senior Secondary level?

A dedicated Sports slot (7 am - 8 am MON-FRI) is made available for students of Senior Secondary. Students get to choose between the PE (Physical Education) class and the Sport Specific Program which caters to 1 (or 2) sport(s) of their choice, for which specialized coaching will be available. The choices for availing the Sport specific program and details of payment will be made available in the month of June 2022.

Apart from sports you will also get opportunities to lead or organize an event, participate in various In-House webinars, Nexus courses, Club activities, competitions etc. This year we will be starting an in-house Hobbies / Club program which the students in the school can avail, at NO ADDITIONAL COST. The students will get to learn the hobby(ies) of their choice and also enroll in some interesting clubs.

12. What will my weekly time table look like? As the school timing is 8 am to 3 pm (Monday to Friday), will I have back to back classes for the entire duration?

Apart from sports slots every morning, there will be club activities thrice a week. Slots for practicals will be at the end of the day. Though there will be some back to back classes, you will also have dedicated time and space for self study as well as your project, assignments and practical related work.

13. I have been a student of Millennium till Std 10. Do I have to repay caution money and Admission fees for taking admission to Std 11?

One time admission Fees and Deposit are waived off for Millennium students if paid at the time of earlier admission. Waiver will be reflected in the payment details which you will receive at the time of confirmation of admission.

NOTE:

Asynchronous content for ALL subjects will be posted ONLINE each week.

Students are expected to learn this individually, take assessments and get the doubts cleared.

IS - In school : S1 to S13 are IN SCHOOL CLASSES for 13 different subjects that are available

OL - Online Online classes will be held for alternate subject with totally different set of students availing it - at the start / end of the day

13. How is the school planning to implement blended learning?

The entire timetable will have a blend of offline and online teaching to accommodate the various subject combinations and to use the available time optimally. This pattern of studying will also help the students acquire self study skills which will help them in their further studies at the Universities. The online teaching would be a combination of live synchronous and asynchronous teaching-learning.

14. Will canteen facilities be available?

Yes

15. Will I be able to avail school transport?

Yes, however not guaranteed. It can be availed based on availability.

16. After taking admission may I get a chance to attend the subjects of my interest and then finalize the five subjects?

Finalization of subjects will be done post admission after the team interaction with the teachers. Before you narrow down on the final four subjects apart from English, you may attend the classes of other subjects of your interest.

17. After taking admission in Millennium, may I get an opportunity to learn the subject or do the practical which I have not opted for, in my free slots?

It depends on the subjects you have chosen and their spacing in the timetable. However you can discuss it with the faculty to decide how this arrangement could be made possible.

18. I am not very clear about what exactly I want to pursue after 12th. How will the school help me in shaping my decision?

It's quite common for a 10th or even a 12th grader to be indecisive about which courses to choose in upcoming years. Various school activities such as sports, events and other co-curricular activities will build your personality. Additionally with teacher mentoring, Student led webinars and alumni network you will get an insight into what interests you the most. These insights will help you in making the right choices.

19. I wish to pursue Engineering. Which subject combination should I opt for?

English, Physics and Mathematics are compulsory subjects if you wish to pursue Engineering. Along with these any two from the offered subjects can be chosen. However as of now, the Engineering Entrance Exam needs you to study Chemistry as well.

20. I wish to appear for JEE B. Arch. Which subject combination should I opt for?

English, Physics, Chemistry and Mathematics are compulsory subjects if you wish to pursue Architecture. Along with these any one from the offered subjects can be chosen.

21. I have enrolled for a renowned coaching class because of which I may need some concession or relaxation in attendance? Will I be allowed to attend only practicals and examinations?

No. In this case Millennium is not the right choice for you.

22. Is there any scope of any foreign language being taught to us for future prospects?

Foreign language is not being offered as an academic subject, however in future students could learn some foreign languages under clubs.

23. What is the mechanism for the parents to get the feedback of their ward?

Parent teacher meeting Saturdays are marked in the school calendar. Apart from that, if the parents wish to meet a specific teacher with an agenda, an appointment with the teacher can be booked in advance.

24. Commercial Art seems to be an interesting subject option. May I opt for it even if I have not passed elementary and intermediate drawing examinations?

Commercial Art is a practical oriented subject which requires artistic aptitude and skills to excel in that subject. However it's not mandatory to have passed Elementary/ intermediate examinations to opt for this subject at the Senior Secondary level.

Having the knowledge of Commercial Art will help you in Architecture, Graphic Designing, Fashion Designing, Interior designing etc.
